A request for continued examination under 37 CFR § 1.114, including the fee set forth in 37 CFR § 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR § 1.114, and the fee set forth in 37 CFR § 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR § 1.114. Applicant's submission filed on December 23, 2003, has been entered.

Although a Notice Of Allowance was mailed on January 16, 2004, this occurred after the filing of the above-identified request for continued examination under 37 CFR § 1.114. Therefore, the January 16, 2004, Notice Of Allowance is hereby vacated in favor of the present Office action.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: Claims 11-16 and 20-22 continue to be allowable over the prior art of record for reasons previously developed during the prosecution. Further search by the Examiner has not resulted in the discovery of any additional pertinent documents. With respect to newly presented claims 23-25, the Examiner finds these claims to be patentably distinguishable over the prior art because of the recitations "for receiving optical signals having wavelengths within a predetermined range of wavelengths" and "a dopant contained within a centermost portion of the core attenuates received optical signals with shorter wavelengths in the predetermined range more than longer wavelengths in the predetermined range". This claim language clearly distinguishes from U.S. Patent 5,841,926 to Takeuchi et al (previously relied on) because the complete attenuation referred to by Takeuchi et al is a cutoff, wherein there is complete attenuation beginning at a particular wavelength. This

is certainly different than the subject matter of applicant's invention, and the new claim language is deemed to make this distinction clear. Claims 11-16 and 20-25 in this application are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the Technology Center 2800 receptionist at telephone number (571) 272-1562, to the technical support staff supervisor (Team 2) at telephone number (571) 272-1564, or to the Technology Center 2800 Customer Service Office at telephone number (571) 272-1626.
